Please do not take the weather and traffic reports off the XM radio. I am a truck driver and have found them to be very helpful in my daily driving. It gives us up to date info. for the area that I am dispatched to. I can stay informed of any problems such as accidents on the interstates and when necessary an alternate route is advised. This is a valuable tool for us truckers. We have enough problems with shippers, fuel issues, etc. we don't need this taken away from us also. Please, do NOT stop these reports. Thank you. Homer Tillson
